

Agenda

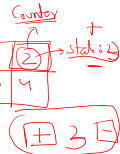

- 1) Class component
- 2) To do

hooks → Dynam.
1) Fun → Static
2) Class → Dynam.

Counter

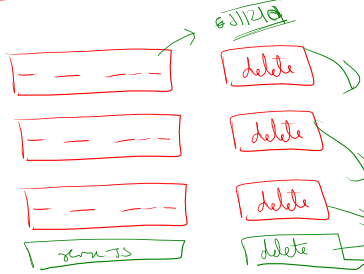

React interview

counter

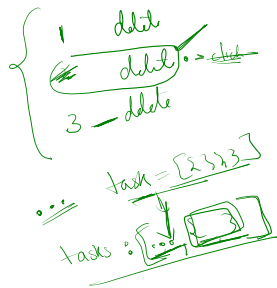

1) state: information stores of component
React object

2) render → state changes, render method we call and what component is rendered

this.state = {
tasks: [1, 2, 3]
}
id: 1
task: study js
id: 2
task: study CSS
