→ click all tickets
- 3) X -  ticket (click) → remove
- 4) local storage ✓
- 5) set ✓
- 6) get ✓

- ① Local Storage Session storage
 - (i) data persists even after clearing the browser, tab
 - (ii) data persists only until we do not close the tab
 - (iii) data would persist until tab is not closed in case of incognito mode

③ LS, SS

storage → origin (domain / port)

④

uid

timestamp: date + time
day + H: M: S: ms
id ⑥

npm → node package manager X
unpack
